

- Share your favorite photos in vibrant color and crisp detail on a 9" ¹ wide (15:9) LCD display with WVGA (800 x 480) resolution.
- Plug-and-Play, PC-less image transfer is a snap with direct USB input³ from most digital cameras, as well as support for most memory cards⁴, including Memory Stick Duo, Memory Stick PRO Duo™, Secure Digital (SD), Multi-Media Card (MMC), Compact Flash Type I and Type II, and xD-picture cards.
- 1GB² internal storage capacity with Auto Sizing adjustment lets you store up to 2000 photos.
- Multiple playback options give you the flexibility to display your photos as single images, as thumbnails for easy searching, or as a slideshow with [TBD] built-in transitions.
- Set the Sony® Digital Photo Frame vertically or horizontally and the DPF-D92's Auto Orientation sensor automatically rotates your photos into portrait or landscape format according to the placement of the frame.
- A supplied remote control lets you navigate the Digital Photo Frame without leaving the comfort of your couch or office chair.
- Clock and calendar modes provide added convenience for your home or office.

like.no.other™

1. Viewable area, measured diagonally.
2. Actual usable memory capacity is 200MB because a portion of memory is used for data management purposes.
3. USB input requires optional USB cable, sold separately.
4. Some cards required an adaptor, sold separately.
